# Legacy Health Profile

Legacy Health, the largest nonprofit, community-owned health system in the Portland/Vancouver area, seeks to improve the health and wellness of everyone we touch, empowering people to live healthier and better lives.

We do so through providing essential medical services, delivered by caring people using the most advanced technology. From the state's only burn center to noted care in trauma, heart, cancer, robotics surgery and children's medicine, Legacy provides unparalleled services.

# Legacy Health at-a-glance

- •Local, nonprofit health system
- Six hospitals
- More than 50 clinics
- Lab, research and hospice
- 2,500 doctors on the medical staff
- •9,000-plus employees

Legacy is known for our community commitment: offering safety classes and promoting injury prevention; providing health screenings and

classes; and following sustainable practices. We support a range of groups building a healthier community.

We are a leader in charity care — delivering medical care to tens of thousands of people annually who have limited ability to pay. Our contributions to the community total more than \$190 million annually.

Integral to the community's fabric, we value diversity and innovative ideas as we continually look for new and better ways to create a legacy of health for all.

#### **Legacy Emanuel Medical Center**

Legacy Emanuel Medical Center occupies a vital role in the metropolitan area and in the region as a medical center with around-the-clock expertise for critical health conditions.

With leading care for trauma, burn and intensive care, as well as serving as the hub for Life Flight and other critical care transport, Legacy Emanuel is central to serious care. Legacy Emanuel is a medical pacesetter, with specialists in virtually every field of health care.

Legacy Emanuel, founded in 1912 by the Lutheran Church, promotes prevention efforts and catalyzes support for neighborhood development and growth.

### The Children's Hospital at Legacy Emanuel

The Children's Hospital at Legacy Emanuel is a regional medical center for children and teens, serving Oregon, Southwest Washington, Montana, Alaska and Idaho.

The busiest pediatric facility in Portland, The Children's Hospital at Legacy Emanuel features more than 100 hospitalists and sub-specialists to serve virtually every need for children. Many of the hospital's specialty care services, such as the heart program and intensive care for newborns and infants, rival those found at any hospital in the country.

The Children's Hospital emphasizes family-centered care, paying attention to the comfort and care of patients and their families. The hospital, which opened in 1960, is involved in many initiatives that promote safety, wellness and education for children.

#### **Legacy Good Samaritan Medical Center**

Legacy Good Samaritan Medical Center is known for its specialty programs and clinical excellence. Legacy Good Samaritan features nationally renowned doctors in heart care, transplants, cancer care, neurology, ophthalmology, weight-loss surgery, robotic surgery, rehabilitation and more.

These doctors support Legacy Good Samaritan's role as a medical center with concentrations of highly specialized services and as a magnet for elective sub-specialty services.

"Good Sam," founded in 1875 by the Episcopal Diocese of Oregon on the same spot it sits today in the heart of Northwest Portland, is proud of its reputation as a longstanding member of the northwest neighborhood and one that is evolving to meet the needs of the urban and suburban communities that surround it.

## **Legacy Meridian Park Medical Center**

Legacy Meridian Park Medical Center is the South Metro area's most sophisticated medical center, combining the personal touch of a community hospital with the specialized services of a larger medical center.

Founded in 1973, Legacy Meridian Park has grown into a sophisticated medical center. Among our specialized services: a nationally recognized stroke program and chest pain center; advanced surgical capabilities with minimally invasive and robotic technology; orthopedic surgery; cancer care; heart care; a birth center; and a nationally accredited breast health center. Plus, an emergency room with the shortest wait times in the area.

Because many of the staff members of Legacy Meridian Park live in the South Metro area, patients and their families are neighbors and friends. Legacy Meridian Park also strives to be a good neighbor, supporting local schools and sponsoring dozens of other community services.

# **Legacy Mount Hood Medical Center**

Legacy Mount Hood Medical Center occupies a key role in this community — that of an institution that provides the finest in medical care delivered with a personal touch.

Legacy Mount Hood, East County's full-service community hospital, offers the finest in patient care supported by advanced medical technology. As the community grows, Legacy Mount Hood is expanding its range of health services. Founded in 1922 as Gresham Community Hospital, Legacy Mount Hood Medical Center began serving Gresham and eastern Multnomah County at its current site in 1984.

The hospital features the area's most modern emergency department, outstanding imaging capabilities (MRI, ultrasound, CT scan), a cardiac catheterization suite, full cancer care, a birthing center and a range of other services.

## **Legacy Salmon Creek Medical Center**

Opened in 2005, Legacy Salmon Creek Medical Center stands as Southwest Washington's most modern hospital, with a range of innovations to improve the health and life of the community.

Legacy Salmon Creek provides a unique hospital experience by combining the latest in medicine and technology and blending them into a setting designed for care and comfort.

The hospital's state-of-the-art electronic medical record system ensures the safest medical care for the best results. Meanwhile, the staff make sure that patients and their families are involved in their care every step of the way.

The latest in medical technology and information systems, a focus on families, and a facility designed for service and comfort — it all comes together to offer better care for patients, making Legacy Salmon Creek Medical Center a vital part of Clark County and Southwest Washington.

## **Legacy Medical Group**

Legacy Medical Group consists of more than 50 primary care clinics and specialty practices across the metro area, plus full-time doctors who care for hospitalized patients — some 300 doctors in all. The result is that anywhere you receive care in the Legacy system, you have access to a range of specialists.

## **Legacy Laboratory Services**

Legacy Laboratory Services is a national model for laboratory systems, offering one of the most extensive medical testing services in the region and serving more clients than any other lab service in the area.

#### **Legacy Research**

Legacy Research is one of the nation's largest non-academic medical research programs, bringing advanced treatment technologies to our patients and community.

# **Legacy Hospice**

Legacy Hospice provides physical, emotional, social and spiritual comfort for adults and children who are terminally ill, and for their families. Legacy Hopewell House provides inpatient care in a home-like setting.

Our legacy is yours.
